Distribution of Random PBIN NODF Values

A histogram showing the distribution of random PBIN NODF values. The x-axis is labeled 'NODF value' and ranges from 40 to 80. The y-axis is labeled 'Count' and ranges from 0 to 2500. The distribution is unimodal and slightly right-skewed, with a peak count of approximately 2400 at a NODF value of about 47. A vertical red line is drawn at a NODF value of 80, which is far to the right of the main distribution.
